'FEED A SOLDIER' PROGRAM

VITEO HEMP

Idea

Every day, Ukraine and its people are working to bring victory closer. And so, every company fulfills its mission by contributing to make it happen. Last year, in early spring, we were brainstorming **how** we could be of use to the Armed Forces of Ukraine, in addition to donations.

What can we do at our production facilities that will be useful at the battlefield? We found a solution and launched the production of a hemp energy bar, **a strategic product for soldiers.**

Non-allergenic ingredients

Premium raw materials

Benefits health

Boosts energy

The first bars being delivered for taste testing became one of our defenders' favorite treats. Healthy and nutritious, they give strength, especially when getting a proper meal is hard.

Currently, we face a great demand for these bars, so we decided to reach out to foreign foundations and everyone willing to participate, to support the production (i.e., financially), primarily for the needs of the Armed Forces of Ukraine.

To do this, we are launching a 'Feed a Soldier' program. This will help us provide the frontline with as many bars as possible and support our defenders!

While it's an air raid alert, I have some time to write reports and treat you to some beautiful photos. 🥰

Natali Prilutskaya, thank you and your friends, Bogdan Tymoshenko, Oles Tymoshenko, SlovakAid Vojenská podporná nadácia, and the Orthodox Church of Ukraine for helping our military with another batch of blankets that arrived at the right time.

Guys have just moved to a new place with very few things, so the blankets came in handy.

Hanna Terpylovska, thank you for the candied fruits and pumpkin. Valentyna Lymarenko, thank you for bars. Thanks Viteo Hemp for hemp energy bars which have become quite popular among the soldiers. 💙💛

Thank you all for your help and for the opportunity to arrange the delivery of an urgent package and add some goodies to it.

Friends, this wonderful man, Doinikov Oleksandr, and his team are making hemp energy bars and handing them over to the Armed Forces of Ukraine. This stuff is great, it's lightweight, doesn't melt or break. You can take them when on raids or snack on the go. You know, awesome stuff. We met yesterday, and I handed some of the products to Khort, a special unit. The commander responded immediately: All right, hemp energy bars give you energy... like a lot of. In case of an attack, grab a tree and hold tight. Otherwise, you'll make it to Moscow in a hot minute. And there's no such order yet...

Grace Grace usually looks better in photos, but after yesterday's morning bombings, she was scared, and a handsome man delivered a box. So the dog saw a hemp bar in it and immediately took a bite. 😊
Thank you to Viteo Hemp for the energy bars.
They will soon be delivered to our soldiers at the frontline. 🇺🇦

The soldiers are all very grateful. Soups are ok, and bars are nutritious and rich in calories. We'd really appreciate it if you could send more of these bars.
